Aures odp 333 not printing.

Specially designed for point of sale and service applications, the ODP 333 by AURES is a thermal receipt printer which features a triple interface (including Ethernet) in a minimalist compact and cubic style, available in black or white. With its front receipt printout, it ensures optimum protection against dust, crumbs and liquid splashes in tough environments such as kitchens, restaurants, bars, bakeries and the like. Thanks to its Energy Star certification, it switches automatically to stand-by mode in less than one second after it stops printing, allowing average power savings of at least 30% - embodying and thus respecting the values of Green IT. This bug is publicly visible. Attached file Raw text from about:support - Details User Agent: Mozilla/5.0 (Windows NT 10.0; Win64; x64; rv:82.0) Gecko/20101011 Firefox/82.0 Steps to reproduce: Trying to print page to thermal printer (paper width 80mm, height over 3000mm or roll). Actual results: Printer roll out 5-10mm of clean paper instead printing Expected results: Normal printed page Component: Untriaged - Printing: SetupWhiteboard: [print2020_v82][old-ai+] [Original report:] Thanks for re-reporting this on bugzilla, Tetiana! And thanks for your about:support information. Using the page about:support, can you try deleting the preference print.printer.THERMAL_Receive.Printer.print_paper_width and see if that resolves the issue? If not, can you also try deleting the preference print.printer.THERMAL_Receive.Printer.print_resolution and see if that helps? You are welcome Cleaning print.printer.THERMAL_Receive.Printer.print_paper_width and print.printer.THERMAL_Receive.Printer.print_resolution doesn't help. I tried reset settings from about:support - also doesn't help. Aures ODP333, Black- is specially designed for point of sale and service applications. The ODP 333 by AURES is a thermal receipt printer that features a triple interface Ser/USB (including Ethernet) in a minimalist compact and cubic style, available in black or white. With its front receipt printout, it is ensuring optimum protection against dust, crumbs and liquid splashes in tough environments such as kitchens, restaurants, bars, bakeries and the like. CLICK HERE FOR Aures-ODP333-specifications.pdf Features Contemporary black cubic design Highly compact ergonomic format Low power motherboard Integrated Triple interface (Serial RS 232C Serial, USB, & Ethernet) Print speed: 160mm/sec Configuration utilities 1 ODP 333. ::: Receipt Printer User's Manual ::: All specifications are subject to change without notice 1. Cash Drawer Connector The printer can operate two cash drawers with a 6 pin RJ-11 modular connector.5 The driver is capable of supplying a maximum current of for 510ms or less when the printer is not printing. PIN SIGNAL DESCRIPTION. 1 Signal GND - 2 Drawer kick-out drive signal 1 Output 3 Drawer open/close signal Input 4 +24V - 5 Drawer kick-out drive signal 2 Output 6 Signal GND - 8. 2-3. Loading the Roll Paper Notes: Be sure to use paper rolls that meet the specifications. Do not use paper rolls that have the paper glued to the core because the printer cannot detect the paper end correctly. (Turn off power switch). Turn off power switch. 1. Make sure that the printer is not receiving data; otherwise, data may be lost.6 2. Open the top cover by pushing down the cover-open button. 3. Remove the used paper roll core if there is one inside. 4. Insert new paper roll as shown. 9. 5. Note the correct direction of how paper comes off the roll. 6. Pull out a small portion of paper, as shown. Then, close the cover. 7. Tear off the paper as shown. 10. CAUTION: When the paper is jammed from cutter, the top cover might be stuck as well. In this case, repeat power on and off several times. If the top cover is still stuck, please follow the steps to release the papers from jamming. 1. Make sure the printer is turned off. 2. Plug in the screw driver into the hole next to where it says JAM on the cover-open button.7 Then turn screw with drivers to a direction until paper is released from the cutter. 11. 3. Control panel and other functions. 3-1. Control panel You can control the basic paper feeding operations of the printer with the button on the control panel. The indicator lights help you to monitor the printer's status. PAPER. ERROR. FEED BUTTON. POWER BUTTON. Button The button can be disabled by the ESC c 5 command. Press the FEED button once to advance paper one line. You can also hold down the FEED. button to feed paper continuously. 3-2. Error indicating This section explains the different patterns signaled by the two LED indicators located on the top cover of the printer.8 PAPER ERROR POWER. STATUS REMARKS. RED RED GREEN. Power off OFF OFF OFF Normal power is not supplied to the printer Power on OFF OFF ON Normal power is supplied to the printer On line OFF OFF ON Normal error-free mode Cover open OFF ON ON Close cover Paper empty OFF ON ON Insert new paper roll Paper near end ON OFF ON Paper is low Test mode OFF OFF ON Ignored error led 12. 4. Self Test The self-test result indicated whether the printer is operating properly. Also with this, user can check following options or status of the printer. Control circuit Printer mechanism Printing quality ROM version Interface setting This test is independent of any other equipment or software.9 Running the self test. 1. Make sure the printer is turned off and the printer cover is closed properly before performing the self test. 2. Turn the printer on holding the FEED button, then the self-test will start. The self-test prints the printer setting value and then prints the following, and pauses. (Error LED On). SELECT MODE BY BUTTON. 1. ASCII PRINT. 2. SELECT BAUDRATE MODE. 3. HEXADUMP MODE. 3. Press the FEED button consecutively (1-3). 1. ASCII PRINT BAUDRATE MODE 3. HEXADUMP MODE. (press the FEED button once) (press the FEED button twice) (press the FEED button triple time). Set the speed of Serial Interface Printing test page constructed Printing the HEX value received (You can set the BAUDRATE in this with ACII code.)10 From the interface mode). Wait for 5-6 seconds if you want to exit. Printer performs a cutting when exiting this mode 4. The printer is ready to receive data after finishing setting. 5. ASCII Print ASCII PRINT is printing a test page constructed ASCII code. You can able to check the printer works properly with this The ASCII PRINT test automatically ends and cuts the paper after printing the following: ** Completed **. The printer is ready to receive data as soon as it completes the ASCII PRINT. 13. 6. Select Baudrate Mode After entering the BAUDRATE MODE, the list which can select the BPS will be printed. Similar like Self Test, you can press the FEED button to select a BAUDRATE. User Manuals, Guides and Specifications for your AURES ODP 333 Printer. Database contains 1 AURES ODP 333 Manuals (available for free online viewing or downloading in PDF): Operation & user's manual. This compact, minimalist thermal printer, the AURES ODP 333 receipt printer offers a splash-proof cubic design, a convenient front receipt printout and a low-power motherboard, together with a triple interface. It has been specially designed for point-of-sale and service applications, the ODP333 by AURES is a thermal receipt printer which features a triple interface (including Ethernet) in a minimalist compact cubic style. It is user friendly and has configuration utilities. With its front receipt printout, it ensures optimum protection against dust, crumbs and liquid splashes in tough environments, which makes it perfect for all catering and hospitality sectors. Thanks to its Energy Star certification, it switches automatically to stand-by mode in less than one second after it stops printing, allowing average power savings of at least 30% - embodying and thus respecting the values of Green IT. The soft matt texture of the AURES ODP 333 EPOS printer is enhanced by touches of a lacquer finish on the sides of the printer, for a modern style and elegance. The AURES ODP333 receipt printer is often purchased along with the AURES YUNO & AURES LC POS systems. If you are looking for the best ODP 333 price, then please get in touch. WARRANTY 2 years Return to Manufacturer MANUALS & DRIVERS The AURES ODP 333 manual, drivers and peripherals can be found on the AURES Support website. View how to print a test page with the ODP333 Receipt Printer!
