Eventually, there was a driver update and I updated my iOS. 03-27-2021, 07:21 AM Moderator Junction Box Date: Mar 2010 Location: Canada Posts: 2,030 Re: Fast Track C400 in Catalina Not working I don't think there will be new drivers for the C400. Uploaded December 13, 2020 3:03 In response to Chlorophyllazul in response to Chlorophyllazul it seems that your latest driver is for High Sierra -Driversif I would contact them and ask if they plan to support newer versions MacOS December 13, 2020 3:03 Reply helpful (1) ca - More options Dec 13, 2020 5:36 in response to dialabrin in response to Dialabrin that's what I did. 03-19-2020, 06:31 PM Moderator Junction Box Date: Mar 2010 Location: Canada Posts: 2,030 Re: Fast Track C400 in Catalina Not working There is a possible solution that might apply to this topic: https://due.avid.com/showthread.php?p=394263 But I don't have a Mac and haven't tested it. 05-19-2021, 03:05 Member Junction Box Date: May 2004 Location: Norwich, CT Posts: 37,668 Re: Fast Track C400 in Catalina Not working Personally, I do not recommend M-Audio interfaces (for several reasons, and Drivers are the top of the list) 02-28-2022, 07:45 AM Junction Box Date: Feb 2022 Location: Nelson BC Canada Messages: 3 Re: Fast Track C400 at Catalina Not working I have a Fast Track Pro. My C400 worked great on my old MacBook Pro 2012, but it doesn't work on my new Mac. Keep in mind that even though other operating systems may be compatible, it is not recommended that you apply any software on different from those specified. Drivers for mine have not been updated since 2015 and will not be updated again, again. Therefore, if you want to install this audio version, click the download button and apply the package. This will help if you have installed an incorrect or incompatible driver. I do not know about the C400. Problems can arise when your hardware device is very old or is no longer supported. There are a few years ago, I had to reinstall my old IOS on my 2012 Mac because my C400 stopped working. In addition, when the installation is finished, run a reboot to ensure that all changes come into effect correctly. The audio version update can improve sound quality, resolve different compatibility issues, correct related errors visas throughout product use, add support for new operating systems and bring various other Changes. Although other operators can be compatible, we also do not recommend the implementation of this release on platforms other than those specified. Windows operating systems apply a generic audio driver that allows computers to recognize the sound card component and make use of their functions. If you have been installed, the update (replacement installation) can correct problems, add new functions, or expand existing ones.
