No matter what you look for, start with a simple search like where's the closest airport?. You can add more descriptive words if needed. If you're looking for a place or product in a specific location, add the location in your search. For example, bakery seattle. To search with your voice, tap the Microphone . Learn how to search with your voice. Tip 3: Choose words carefully Use terms that are likely to appear on the site you're looking for. For example, instead of my head hurts, say headache, because that's the term a medical site uses. Tip 4: Do not worry about the little things Spelling: Google's spell checker uses the most common spelling of a given word, regardless of how you spell it. Capitalization: A search for New York Times is the same as a search for new york times. Tip 5: Find quick answers For many searches, Google provides answers directly in the search results. Some features, such as details about sports teams, aren't available in all regions. Weather: Search weather to find the weather in your location or add a city name, like weather seattle, to find weather for a certain place. Dictionary: Put define in front of any word to find its definition. Calculations: Enter a math equation such as 3*9123, or solve complex graphing equations. Unit conversions: Enter any conversion, such as 3 dollars in euros. Sports: To find a schedule, game scores, and more, search for the name of your team. Quick facts: Search for the name of a celebrity, location, movie, or song to find related info. Expert Search tips Post to the help community Get answers from community members
