Celtic Spiral KnotMesmerising, isnt it?Said to mean eternal life and is believed to be one of the oldest Celtic designs. This is another three-sided knot that stands for water, fire and earth, which are the forces of nature. These designs feature a single continuous line that represents the oneness of spirit and unity. In the Neolithic Age of Europe, it was common to see single and double spirals on temples and other European monuments. The whirls of the spiral stand for continuous growth, while the gaps between the rings stand for the gaps between life, death, and rebirth.Of course, it is down to your own interpretation and what it means to you with all of these symbols.3.
