Is- 700 fema study guide

ts to the Incident Command System (ICS). This system is used nationwide to

is courses for all personnel involved in incident management. Descriptions and and on our web site: <http://training.fema.gov>.

Course Objectives

This course is designed to enable personnel to operate efficiently during an incident or event within the Incident Command System (ICS). This course focuses on the management of an initial response to an incident.

Overall Course Objectives

At the end of the course, you should be able to:

- Describe the course objectives and summarize basic information about the Incident Command System (ICS) and National Incident Management System (NIMS).
- Describe how the NIMS Management Characteristics relate to Incident Command and Unified Command.
- Describe the delegation of authority process, implementing authorities, management by objectives, and preparedness plans and objectives.
- Identify ICS organizational components, the Command Staff, the General Staff, and ICS tools.
- Describe different types of briefings and meetings.
- Explain flexibility within the standard ICS organizational structure.
- Explain transfer of command briefings and procedures.
- Use ICS to manage an incident or event.

STANDARD NIMS Study Guide

Key Concepts

1. NIMS
2. National Incident Management System
3. Incident Command System (ICS)
4. Emergency Operations Center (EOC)
5. Emergency Management System (EMS)
6. Incident Management
7. Resource Typing
8. Emergency Management System (EMS)
9. Mutual Aid
10. Common Terminology
11. Unity of Command
12. Information Systems (IS)
13. Incident Action Plan

Key Concepts

1. NIMS provides a framework of government, nongovernmental organizations (NGOs), and the private sector to work together to:
 - a. provide a single, unified response, and process for incidents.
2. It encompasses, sustainable, systematic approach to incident management, including the structure and coordination of personnel, resource management, and information management.
3. It is a critical component of interoperability among multiple organizations in incident response.
4. The NIMS provides a framework of government, nongovernmental organizations (NGOs), and the private sector to work together to:
 - a. provide a single, unified response, and process for incidents.

Fema is 700 study guide.

Which major NIMS Component describes recommended organizational structures for incident management at the operational and incident support levels? Order and Acquire B. TRUE B. FALSE 7. Instead 40. Which ICS structure enables different jurisdictions to jointly manage and direct incident activities with a single incident action plan? Equipment Standards B. TRUE B. FALSE 9. Chain of Command and Unity of Command C. When an incident occurs or threatens, local emergency personnel manage response using NIMS principles and ICS. C. Which NIMS Management Characteristic includes documents that record and communicate incident objectives, tactics, and assignments for operations and support? Planning Section 17. Incident Support Model (ISM) structure 41. Each ICS General Staff is led by a(n) _____ who reports directly to the Incident Commander or Unified Command. Administrative Authority C. Redirect B. Store C. Decline D. Incident Action Planning 35. Joint Information Center C. Incident Facilities and Locations C. Incident Base B. Security C. Which resource management task includes activating local resource requirements, if available? True B. Order and Acquire D. Planning for Resources 55. Level 3 - Normal Operations/Steady-State D. Level 2 - Enhanced Steady-State 31. All of the above C. TRUE B. FALSE 33. Disregard 21. A. Emergency Operations Centers (EOCs) C. Information Security/Operational Security 12. Security C. Section Chief B. Joint Information System (JIS) 45. Comprehensive Resource Management C. Common Terminology B. Color 43. Establishment and Transfer of Command D. confidentiality B. Incident Command Post C. advanced equipment C. Integrated Communications D. Acquiring, storing, and inventorying resources B. Accountability 50. Resilience and Redundancy 16. Joint Information Center (JIC) B. Management by Objectives C. Manageable Span of Control B. outside C. In NIMS, when do managers plan and prepare for the demobilization process? Which NIMS structure develops, recommends, and executes public information plans and strategies? Liaison Officer 58. Unified Command D. Order and Acquire D. Which NIMS structure makes cooperative multi-agency decisions? Regarding resource typing, which of the following characteristics are typically use to categorize resources? The 'capacity for emergency management and response personnel to interact and work well together' describes which of the key communications and information systems principles? Planning C. Certification D. Policy and Planning D. Ensuring the uninterrupted flow of information' describes which key communications and information systems principle? B. Which Command Staff member serves as the incident command's point of contact for organizations not included in the Incident Command or Unified Command? One EOC function is to provide coordinated support to incident command, on-scene personnel, and other EOCs, if needed. Comprehensive Resource Management B. The need for _____ can complicate information sharing among emergency personnel. social media outlets 24. Management by Objectives 51. MAC Group 18. Unit Supervisor D. FALSE 47. Agreements C. Collecting, analyzing, and sharing information D. Demobilize C. Acquiring, storing, and inventorying resources C. Mutual Aid Agreements are executed. Information and Intelligence Management C. Use of communications and information systems that are familiar to users is a part of which key principle? NIMS Components are adaptable to planned events such as sporting events. D. Finance/Administration C. Which resource management activity establishes common definitions for capabilities of personnel, equipment, teams, supplies, and facilities? Qualifying, certifying, and credentialing personnel D. Incident Command Structure (ICS) B. Modular Organization B. Planning for Resources 28. Emergency Management Assistance Compact (EMAC) is a state-to-state system for sharing resources during an emergency or disaster. During recovery. When only certain EOC team members or organizations are activated to monitor a credible threat, which Activation Level has been implemented? All Stakeholders C. Departmental Structure D. Using social media to support activities such as producing maps and incident visualizations is an example of which communications standard? Area Command B. Which resource management task enables resource coordination throughout the incident? Standardization D. Communications and Information Management C. Level 4 - No EOC is required C. Planning, response, recovery. Location C. Reimburse and Restock 59. Mobilize 13. Comprehensive Resource Management 5. Reimburse and Restock B. A. Which NIMS guiding principle supports interoperability among multiple organizations? Track and Report C. Local EOCs activate. Interoperability D. EOCs receive senior level guidance from: A. Incident Reports, such as Situation Reports and Status Reports enhance situational awareness and ensure that personnel can access needed information. Mobilize C. Operations B. Which NIMS Management Characteristic includes developing and issuing assignments, plans, procedures, and protocols to accomplish tasks? Which NIMS Management Characteristic involves using standardized names and definitions for major organizational functions and units? Resilience and Redundancy D. Emergency Operations Center (EOC) D. Order and Acquire 49. Command and Coordination 44. Interoperability 32. Comprehensive Resource Management 39. The MAC Group does not replace the primary functions of EOCs or other dispatch organizations. EOC B. Public Information Officer B. MAC Groups B. Capability B. Common Terminology, Plain Language, and Compatibility B. EOCs can be fixed locations, temporary facilities, or virtual structures with staff participating remotely. Which communications management practice includes specifying all of the communications systems and platforms that parties will use to share information? 1. Joint Information Center D. Manageable Span of Control 15. Unity of effort, preparedness, resource management. Chain of Command and Unity of Command B. MAC Group C. Which EOC configuration allows personnel to function in the EOC with minimal preparation or startup time? The _____ is a central location that houses Joint Information System (JIS) operations and where public information staff perform public affairs functions. Resource Management B. Integrated Communications D. non-activated C. TRUE B. FALSE 30. Level 1 - Full Activation B. Mobilize D. Management by Objectives D. Establishment and Transfer of Command 4. Flexibility, standardization, unity of effort. Which NIMS Command and Coordination structures are offsite locations where staff from multiple agencies come together? Reliability, Scalability, and Portability B. ICS or ICS-like EOC structure B. In NIMS, resource inventorying refers to preparedness activities conducted outside of incident response. Standardized Communication Types 53. Number available D. 36. Camp D. verified sources D. On-scene D. If the incident is or becomes large or complex, _____ Identify Requirements 57. Staging Area 25. 11. Which NIMS Management Characteristic allows units from diverse agencies to connect, share information, and achieve situational awareness? Track and Report 6. Which organizations should be involved in communications planning? Planning D. Logistics 20. When transitioning between operational

periods. Group Supervisor 8. Which resource management task determines the type, quantity, receiving location, and users of resources? Resources, organization, standardization. Off-site 42. Joint Information System (JIS) 46. with D. Track and Report B. Reimburse and Restock D. Full activation of an EOC can include personnel from assisting agencies. Which type of ICS facility is used to temporarily position and account for personnel, supplies, and equipment awaiting assignment? Credentialing 23. TRUE B. The jurisdiction receiving mutual aid can _____ resources if they do not meet its needs. Command and Coordination C. Communications and Information Management 27. Integrated Communications 2. Unified Command C. Comprehensive Resource Management D. Unity of Effort B. 22. Modular Organization D. Identify Requirements B. Technology Use and Procedures D. Information and Intelligence Management C. Strategic Joint Command Structure C. TRUE B. FALSE 34. Incident Command Post 29. Which resource management task deploys or activates personnel and resources? The Incident Action Plan is prepared by General Staff from which section? Providing coordination and policy direction 14. Safety Officer D. False Which resource management activity identifies and verifies that personnel are qualified for a particular position? Incident Command System C. ICS provides a standardized approach to the command, control, and coordination of _____ emergency personnel. TRUE B. FALSE 19. The three NIMS guiding principles are: A. Which NIMS Management Characteristic follows established processes for gathering, analyzing, assessing, sharing, and managing data? Resilience and Redundancy 10. Area Commander C. Coordinating plans and determining resource needs B. Management by Objectives D. None of the Above C. Joint Information System (JIS) 48. Establishing mutual aid agreements to obtain resources from neighboring jurisdictions is an example of what resource management activity? Which NIMS Management Characteristic includes maintaining accurate and up-to-date inventories of personnel, equipment, teams, and supplies? Information and Intelligence Management D. Incident Management Team 3. Identifying and Typing Resources B. Unified Command C. Area Command D. Identifying and Typing Resources C. 52. Joint Information System (JIS) D. At the same time they begin mobilizing resources. Which of the following is an EOC function? Adaptability C. Modular Organization 37. during B. Flexibility 56. Federal authorities assist. Integrated Communications 38. Which NIMS Management Characteristic refers to the number of subordinates that directly report to a supervisor? Incident Action Planning D. In NIMS, resource inventorying refers to preparedness activities conducted _____ (of) incident response. Which NIMS Management Characteristic helps to eliminate confusion caused by conflicting instructions? At the end of the incident. Dispatch/Deployment 54. Qualifying B. TRUE B. FALSE 26. A Unified Command is established. Incident information is used across ICS, EOCs, MAC Groups, and JIS to aid in planning, determine incident costs, and identify safety issues. Which resource management task establishes and maintains the readiness of resources and ensures providers are paid in a timely manner? Incident Action Planning B.
