To use this watch properly, you need to know how to program it. Locate the four metal buttons next to the face of the watch at four corners around the dial face. The user manual for the Armitron All-Sport watch labels the top button on the left A, the bottom left as B, the top right button as C and the bottom right as D. Press and hold the "set" button, A, to set the time and date on your watch. This will cause the numbers on the face of the watch to flash. Press B to advance the hours and minutes. Press B to advance the hours and minutes to get the reading on the clock to match the actual time. Press B two times, followed by A to set the alarm. This will cause the alarm time to flash, starting with the hours. Press C to advance the minutes setting. Enter into "Alarm" mode by pressing B twice. Press C to advance the minutes setting with the alarm and hourly chime are indicated by a bell and house symbol respectively on the face of the watch. You don't need to be a master watchmaker to set or change the time on an Armitron watch. Image Credit: lechatnoir/E+/GettyImages Pro Sport Watch Add a Time Zone Analog Watch Guidance for Care Armitron makes several watches, many of which are great for tracking your workouts, charting split times and hitting your goals. But they're not smart watches, so the time doesn't set on its own. When you first get your watch, you'll need to know how to change the time on an Armitron watch. Here's everything you need to know about how to set an Armitron wrist watch and how to easily change the time. How to Set the Time on an Armitron Pro Sport Watch manual to set the time on the watch, including when you need to adjust for daylight saving time beginning (usually mid-March) or ending (early November), or when you first take the watch out of the box. To set the time on your Armitron Pro Sport Watch, you'll need to know which button (D) is "ST/STP," which stands for "Start" and "Stop."The bottom left button (B) is "Mode."The bottom left button (C) activates the light. To begin setting the time, hold the "Reset" button (B), "Mode" to access the hour setup. Note that pressing this button will not actually change the hour, but the hour side of the time display will start to blink. This indicates that you're ready to continue to the next step to set the hour. Each time you press the button, the hour will increase until it hits 12, after which it will restart at 1.Press the "Mode" button (B) again to set the hour. When you do, the hour side will stop blinking and the minutes Press the "ST/STP" button (D) on the top right to increment minutes. Each time you press the button, the number of minutes increases by 1. Once your watch is set to the correct time, press the "Reset" button on the top left (A) to set the minutes. Want a 24-Hour Time Display? How to Add Multiple Time zone on your watch. Follow the steps below to set an additional time:To enter the Second Time Zone mode, press the "Mode" button 3 times. Press the "Reset" button. The hours icon will start flashing. Press the "Mode" button again. This will set the hours and allow you to change the minutes. The minutes icon will begin flashing. Press the "ST/STP" button again to increment the minutes. Once you've selected the correct minutes, press the "Reset" button to set the time. Press the "Mode" button to return to your main time zone. by Madeleine Burry by Marygrace Taylor by Jessica Campbell-Salley How to Change the Time on an Armitron Analog Watch Have an Analog Armitron watch and not a digital one? Follow the steps below, from the Armitron Analog Watch manual, to set the time: 1. Identify Crown Position to set the date (for watches with date windows). C. Position to set the time: 1. Identify Crown Position to set the date (for watches with date windows). C. Position to set the time: 1. Identify Crown Position to set the date (for watches with date windows). C. Position to set the date (for watches windows). C. Position to set the date (for watches windows). C. Position to se the time, pull the crown out until it is in position C. The second hand will stop moving. Rotate the crown forward or backward until the time is correct. Push the crown back in to position A to resume time keeping. You should see the second hand start to move again. Carring for Your Armitron Watch Most Armitron watches, both Sport and Analog, are water resistant. Analog watches likely have a depth limit on the back of the watch; ensure you're not wearing your watch if you go below this depth. For Sport watches or any Armitron with a push button, do not use any buttons under water. Armitron recommends taking your watch to a local jeweler to replace the battery. For Analog watches, the brand suggests having your local jeweler replace the gasket and O-ring every time you have the battery changed to ensure the watch remains waterproof. For larger repairs or maintenance, including cleaning, lubrication or having a crystal replaced, Armitron has a list of approved service centers where you can send your watch. More Fitness Trackers and Watches by Emily Abbate, CPT by Amy Schlinger, NASM-CPT by Amy Schlinger, NASM-CPT Image Credit: LIVESTRONG.com Creative Image Credit: LIVESTR tear or abuse and excludes batteries, case, strap, crystal, or bracelet.
