By Ken Michaels, guest writer in the game of Shakespeare - à Hamlet, à "Churches of the Prince's Poland, à~" What are you reading, my ásr? He is not at all satisfied with what is Reading, Hamlet replies, à ~ Áwords, words, words. - Earlier I described the communication model in which a sender encodes a message and then sends it through a channel (or medium) to a receiver, which decodes the message and ideally understands what has been sent. Surely the most common way to encode a message is to choose the most appropriate words for or the reader. In the case of Hamlet, he did not like what he read that described it elementary, as simple words, rather than a message. So I thought I'd give a little ink to the words themselves. à € "The words have specific meaningful words that end in nym describe the classes of words. Some of the most frequently used nym words are synonymous (meaning the same as); antonimo (means the opposite of); The same name (has. (has.same sound of); and acronym (a word derived from the first letters of a more complex term, such as the scuba or AIDS). Homo means à€ òsame, à€ and hetero means à€ à€ œDifferent.à€ "So, if there are homonims, it is going to reason that there are also etheronims. While omonyms have the same sound but different spells (such as pair and similar pear), etheronims are written the same but have different meanings and, often, pronunciation: a sewing person is a sewer, but a repository for waste products is a sewer. Fogna, therefore, is an etheronim. But the vocabulary of the words nym does not end here. One of the websites I visited recently 2 lists no less than 26 nym words, many of which are quite arcane and of interest to relatively few. Some are definitely fun. Do we really need a word to mean another word of two identical parts? If yes, then tutu, pawpaw, yo-yo, and hello are the tatonimi. A couple of weeks back, my son asked me what you mean for a metal. You don't know, so we watched it. In retrospective, I should have been able to logic it, as "meta" means change. A mestonym is a word that designates something from a word that is associated with it. For example, Hollywood is a metalmit used to indicate the U.S. Motion movement industry, while the crown refers to royalty and the bottle refers to alcohol. My use of the expression "a small ink" a couple of paragraphs is also a methonym for written communication, even when no real ink or writing on paper is involved. The point of all this has to do precisely in the use of our language. It won't do me well to encode a message using a metonyming, etheronimo or tautyony word, unless there is certain that my listeners (or readers) are familiar with its meaning. Or that, or am I ready to add the definition for their benefit, in which case I may have just used the definition first. However, learning the correct use of words, however Arcane, can be useful, and if you like the words themselves, even fun. What's your idiolect? In his book "the half-life of facts: because everything we know has a expiry date," Samuel Arbesman3 discusses changes in language that occur over time and the two fields that see this phenomenon differently. Explains prescribed grammarians like those who focus on how words should be used and descriptive grammar as those who are more concerned about how they are actually used. Arbesman states that every individual develops its own set of rules on how to use words, and that all of us "you, me, and all others" have our own idiot. This delicious term describes our unique language model andas determined by what we learned when we were young, as well as by those around us, and includes our grammar, vocabulary, word pronunciation, and even our accent. There is an important lesson here. If we continue to communicate effectively and efficiently, we must be aware that every time we codify, we codify. A message, someone whose idiolectto is significantly different from ours could most likely decode it in order to get a completely different message. So it is worthwhile to be careful about the choice of words; Is it really a message, or simply "words, words, words"? À © 2013 Ken Michaels. All rights reserved. One of the best reasons to get a private virtual network (VPN) is to download files. Using a VPN, you should be able to access files from networks and countries that would otherwise be blocked. For people who use torrent links to download files with protocols such as BitTorrent, access to a VPN is very important. For its own nature, torrents require the use of a number of servers online, each of which shares a small part of a larger file. A person who accesses a torrent file downloads several smaller files (or file parts) simultaneously, which are then assembled in the full file at the end. To learn more: the best VPNs you can get you want to keep your privacy when downloading torrent files, the use of a VPN is really a requirement. However, if you're looking for potential VPNs for torrent purposes, what are the best? Note: Torrenting is a popular way to get illegal content; Obviously we don't condone the use of torrent to get downloading copyrighted or illegal protected files. Best VPNs for Torrent: ExpressVPN NordVpn Private Internet Access Cyberghost IPvanish Surfshark Editor Note: We will update this list of the best torrent VPNs regularly to the launch of new VPNs. ExpressVpnanakit Banerjee / Android AuthorityExpressVPN is considered one of the best VPN services around with a good reason. It offers everything you would expect from a great VPN, as a zero-logging policy, impressive connection speed, a large number of servers around the world and security features needed as Network Lock, DNS Leak Protection and more. The apps are easy to use but do not compromise the settings and functionality .expressvpn also does not waste on what the VPN is able to do. Everything from the sharing of P2P files to multimedia streaming, including Netflix, you can use ExpressVPN. His zero-logging policy, the fact that it is home in the British Virgin Islands and the support for P2P on all servers make ExpressVPN one of the best VPNs for torrent that you can get.ExpressVPN can be more expensive than other providers , is definitely one of the best VPN services around and worth the price. Prices include \$59.95 for the 6 month plan (\$9.99 per month), and \$12.95 for the month-to-month plan. However, you can save 49% and get 3 months free (for a total of \$99.95 99.95the first 15 months) if you are an Android Authority reader. It will cost then only \$6.67 per month for the first 15 months. NordVPNEdgar Cortaves / Android AuthorityNordVPN is all to provide the best security features possible. Your online activity remains completely private thanks to its zero-logging policy, IP and DNS leak protection and the best encryption protocols. In addition, you can use the specialized servers for P2P and Anti-DDoS. For even greater security, you have the ability to enable Double VPN that runs everything on two servers.While a network kill switch is standard, the service also features a Kill Switch App that allows you to set certain apps for automatic shutdown in case of a VPN connection break. Applications recognize even if you are in a limited location and upload off-site servers. Finally, you can request a dedicated IP service, which will save you 70 more dollars a year. Despite the heavy security features, NordVPN can offer excellent speed and low latency. It features specialized servers for torrenting and Netflix works via selected servers as well. NordVPN is also one of the few premium VPN services that offers a seven-day free trial along with a 30-day money-back guarantee. NordVPN is also quite convenient considering everything it has to offer. It is currently at the price of \$49 for the 1 year plan (\$4.08 per month), and \$11.95 per month. You can also get a two-year plan, billed as \$ 89 or \$3.71 per month, with an extra of three months free. With its great mix of security features, speeds, extra useful and reasonable prices, NordVPN is considered by many of the best VPN services currently available. Private Internet Access Private Internet Access, or PIA, is a very popular VPN service especially because of its convenience. However, it does not compromise the key aspects that make a good VPN. Connection speeds are good, all necessary security features are available and its zero-logging policy helps to alleviate any concern about the fact that PIA is based in the United States. Once you set up and save the various security settings and functions, PIA is fully controlled through a tray icon on Windows, which may take a while to get used to. Overall, it's not the easiest to use and it's recommended for more experienced VPN users who can easily find their way around everything. If you are looking for a fast and affordable VPN service, PIA is the right way. Read more: The best available cheap VPNsPIA has a price of just \$39.95 per year (\$3.33 per month), and a monthly fee of \$9.95. The best value is the two-year plan, with an extra of two months free, which costs \$69.99 (\$2.69 per month). Get nowPrivate at the CyberGhostAnkit Banerjee / Android Authority CyberGhost is another popular VPN service that pops up all the right boxes regarding what you expect from a premium VPN. Windows app interface is similar to what you see with PureVPN, with variousHow to navigate anonymously, stream anonymously, anonymous flow, and more. Speeds are good but not exceptional. However, it could be because of my position. Speeds are even more than enough to stream high quality videos on sites like Netflix without any delay or buffering problems. Cyberghost is also one of the best VPNs for the torrent. In addition to the Anonymous Torrent section, the server list clearly marks the positions that allow the sharing of P2P.Cyberghost files cost \$112.99 per month, \$47.88 per year (\$ 3.99 per month), or \$28.80 for the first six months (\$ 4.80 per month). There is also a one-year plan, with three months for free, à with the first 15 months at prices just \$29 or just \$1.99 per month. IpvanshipVanish is a simple VPN to use with apps available for each main platform and support for Wi-Fi routers, Chromebooks and more. Security and privacy features are fantastic, and beyond what many competing services have to offer. Ipvanship is known to offer some of the fastest download and loading speeds, and its usually low latency makes it one of the best VPNs for Torrenting. The stability and reliability of the connection are also impressive. Ipvanship is based in the United States, which can be a problem. However, its strict zero-logging criterion should help alleviate any concern. The price has a price of \$44.99 for the first year (\$ 3.75 per month) and then rises up to \$89.99 per year later. You can also take advantage of a 30-day money-back guarantee with this subscription. A monthly plan will return you \$10.99 a month. There are also plans that add 500 GB of cloud file storage. They cost \$12.99 per month or \$54.99 per year for the first year, and then \$109.99 per year later. SurfsharkAnkit Banerjee / Android AuthoritySurfshark is one of the most tried VPNs for the torrent you can get. Use multi-hop servers to add another level of security and a media mode ensures that the internet service provider can't say you're connected to a VPN. You should not even have too many problems using surfshark in restricted regions with its Nobreders mode. Finally, it has a strict non-registration policy and uses the safest encryption standards and VPN protocols. All of this and more make it one of the best VPNs for Torrenting.surfshark comes with one of the highest monthly rates for a VPN service at \$12.95. Diddle up to \$6.49 per month for the six-month plan, billed as \$38.94. You can also get a two-year plan for the special price of \$69.76 (\$2.49 per month) for the first two years if you type the promo code à€ œsurfsharkdealaà€ œ. As you can see, there are plenty of options if you want to use VPN for torrenting files, with many services that offerfast, keeping even those activities private and safe. Of course, we will continue to expand this list as we review even more VPN services. Learn more: The best providers of free free VPN providers
